HEART MIND AND SOUL

Caring for Our Minds, Hearts, and Souls

Facilitated by Zukiswa Mqaqweni | BMC Online | Mon 2 Nov · 6:30pm

"Love the Lord your God with all your heart and with all your soul and with all your mind."
MATTHEW 22:37

Why tonight?
It’s not obvious.

We don’t only talk about “mental illness”. We talk about what it means to be fully human.

What part of your heart, mind, or soul feels most burdened today?

THE HEART
Where we feel

“Above all else, guard your heart…”
PROVERBS 4:23

Psalm 42 gives permission to lament—not simply to stay strong. Grief named before God can become a doorway to care.

JOURNAL · PRAY HONESTLY · EXPRESS GRIEF

Have you given your heart permission to lament?

THE MIND
Where we think

“You will keep in perfect peace those whose minds are steadfast.” — ISAIAH 26:3

Elijah’s story holds exhaustion, fear, rest, nourishment and God’s gentle whisper together. Restoration begins by respecting our limits.

Thoughts ≠ facts · Rest · Boundaries
Manage expectations · Notice what is true

What thoughts weigh heaviest on your mind?

THE SOUL
Where we belong

“My soul finds rest in God alone.”
PSALM 62:1

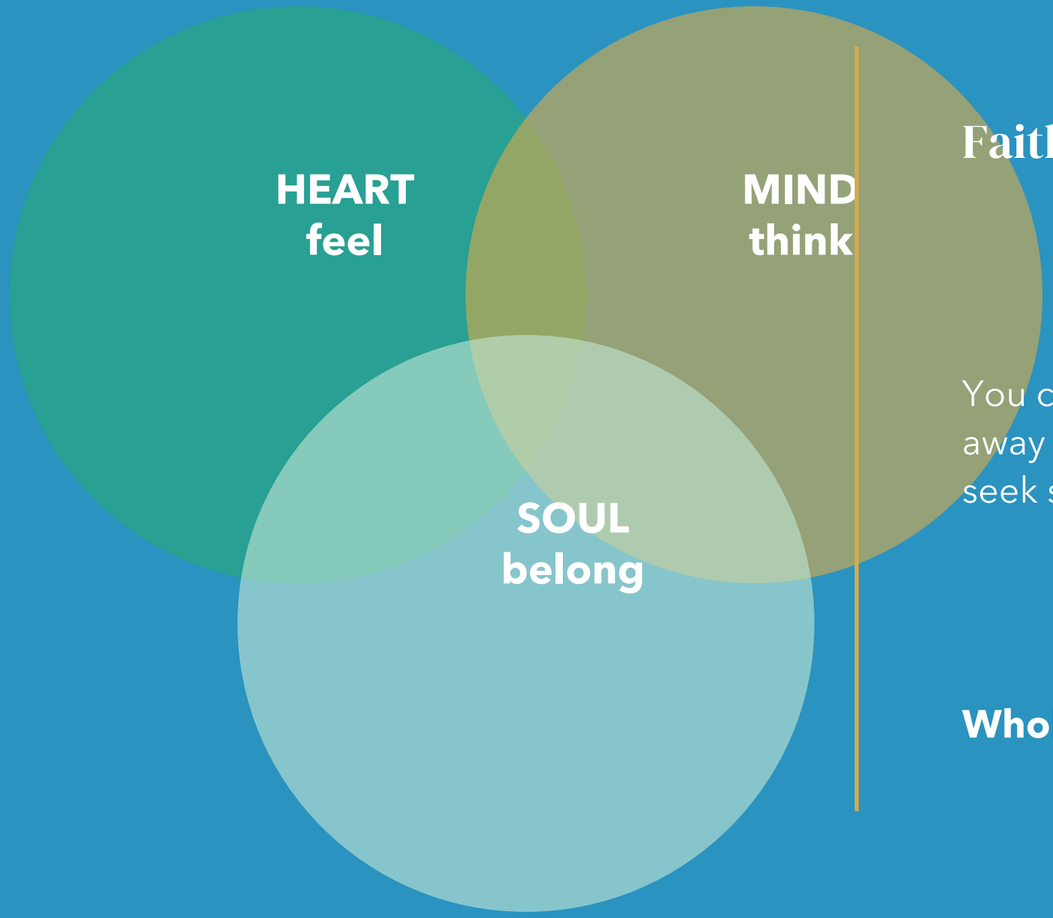

Jesus wept. Jesus knew anguish. Job endured suffering; Paul received and offered encouragement. Faith makes room for pain—and refuses to leave us alone within it.

PRAYER · WORSHIP · SABBATH · COMMUNITY

Where does your soul find rest?

They work together.

Faith + practical tools + professional help

You can’t pray away sleep deprivation. You can’t sleep away soul hunger. As with a broken leg, we pray—and seek skilled medical care.

Whole healing honours every part of the person.

Mental health is human health.

MENTAL HEALTH

Everyone has it. It fluctuates over time and needs daily nurturing. It shapes how we think, feel, act and recover through life's ups and downs.

MENTAL ILLNESS

Diagnosed conditions—including depression, anxiety and bipolar disorder—can affect thoughts, feelings and behaviour, and may require professional care.

EMOTIONAL · PHYSICAL · SOCIAL · SPIRITUAL

How do you nurture your mental health daily?

Warning signs not to ignore

Notice changes in yourself and others—especially when they persist for 2–4 weeks.

HEART
Loss of joy
Irritability
Isolation

MIND
Constant worry
Poor concentration
Racing thoughts

SOUL + BODY
Hopelessness
Loss of purpose
Sleep, appetite or motivation changes

Thoughts of self-harm or suicide require immediate help: call 112 and tell a trusted person.

Faith and professional help belong together.

FAITH PRACTICES

Prayer is essential.
Scripture is life-giving.
Christian community carries us.
Hope can coexist with treatment.

PROFESSIONAL SUPPORT

Counselling is a gift—not a lack of faith.
Medication may be appropriate.
Clinicians can assess and guide care.
We pray and seek medical help.

FOR HELP, CONTACT NADJA · nadja@bmc.org.za · bmc.org.za

Build resilience in four directions

SPIRIT

Prayer · Scripture meditation
Worship · Gratitude

MIND

Healthy thinking · Boundaries
Expectations · Rest

BODY

7–8 hours sleep · Movement
Healthy nutrition

RELATIONSHIPS

Honest conversations
Accountability · Ask for help

Which pillar needs your attention today?

A church that walks alongside

“The God of all comfort… comforts us in all our troubles.”
2 CORINTHIANS 1:3–4

LISTEN before advising
PRAY without judging
CHECK IN regularly
SUPPORT caregivers

CREATE safe small groups
REFER to professionals
WALK ALONGSIDE—don’t fix
SHARE responsibility

Families · church · schools · community

For help, contact Nadja · nadja@bmc.org.za

Begin with one honest question:

“How are you really doing?”

su

May the God of all comfort meet us with peace, courage and hope—and lead us toward the help we need.

If you or someone you know is experiencing thoughts of self-harm or suicide, seek immediate help from emergency services or a crisis service and inform a trusted person without delay.
